An Affidavit of Single Status is a document used by US citizens planning to get married in another country. It's not required in all jurisdictions but necessary for confirmation that the individual doesn't have a current marriage and is eligible to enter into official relationships under foreign laws. The affidavit must be acknowledged by a notary public and may need to be apostilled for acceptance in certain countries. Requirements for an Affidavit of Single Status vary depending on the destination country. In countries part of the 1961 Hague Convention, the affidavit needs to be apostilled. In other countries, it needs to be legalized. There is no government-issued document stating a person can legally marry; therefore, don't request form letters from local county clerks. To obtain a single status affidavit for international marriage, follow these steps: It's recommended to use the free affidavit form available on our website to save time. Some jurisdictions require affidavits of single status to be apostilled, so check current regulations in the destination country before proceeding. When filling out the affidavit, include: - Your name and place of residence - Date of birth and citizenship details - Passport or driver's license number The document should state that you are currently single and have never been married before or that you were divorced/widowed and are currently single. Get the affidavit signed in front of a notary public, who will also provide their signature and stamp with the date. The Single-Status Affidavit: A Vital Document for Unmarried Individuals The Single-Status Affidavit is a legal document that confirms an individual has never been married or has had any previous marriages legally ended by death or divorce. This document is crucial when planning to get married abroad, as it serves as proof of the holder's freedom to marry. The affidavit also applies to individuals whose marriage has been annulled, making it essential to attach a decree of annulment for clarity. For those outside the US, the local U.S. Embassy or Consulate can assist in creating the affidavit. Alternatively, one can write their own using online templates or forms from authorities like the Georgia Superior Court Clerks' Cooperative Authority. The Single-Status Affidavit requires basic personal information, including the holder's legal name, passport number, birth date and place, previous marriage dates, and the date of divorce or death. Additionally, a copy of any final divorce decree can be attached to avoid last-minute issues. Once complete, the affidavit must be signed in the presence of a notary public, who will verify the signer's identity with valid identification and witness the signature. The document is then ready for apostillation, which confirms its authenticity and allows it to be accepted by foreign countries that are members of the Hague Apostille Convention. To obtain an apostille, one must contact their state's apostille service, as each state has its own process. For instance, a Single-Status Affidavit from Los Angeles would require an apostille from the State of California. Get an apostille for international marriages with ease! State apostilles can be obtained as walk-in services or by mail, requiring basic info about the destination country and a fee of \$15-\$20. Check with the requesting country on document age requirements, typically within 30-90 days. A Single Status Affidavit confirms your eligibility to marry, essential for international weddings. This document verifies you've never been married or previous marriages ended legally due to death or divorce. To obtain an affidavit, fill out a simple form providing your personal details, including name, passport number, birthdate, and previous marriage info. Attach a copy of your final divorce decree if applicable. Get your draft notarized from PacSigning for smooth apostille processing. If the destination country is part of the Hague Convention (e.g., Germany, Spain, France), get an Apostille from Pac Signing Notary. Otherwise, obtain an Apostille from us and authenticate through the Embassy. When marrying abroad, contact the nearest embassy or consulate to confirm required documents and authentication processes. Canadian government offices can provide information on local laws and regulations. Remember, marriages performed in a foreign country are usually valid in Canada and don't need registration. Being a Canadian Citizen Abroad: Important Considerations Obtaining citizenship of another country can automatically grant you its citizenship, but this may not be recognized by Canada. As a result, it's essential to understand the implications and requirements for international marriages. If you're not currently attached, follow these steps to have your documents verified. A "Certificate of Non-Impediment to Marriage Abroad" confirms there are no objections to a proposed marriage or civil partnership. However, Canada doesn't issue these certificates directly; instead, we can provide a statement in lieu of one. You can find out more about getting this statement from the Government of Canada's website. If you're currently outside of Canada, you may be able to request this document from the nearest Canadian government office abroad for a fee. Keep in mind that some foreign governments might not accept this document as proof of your eligibility to marry. Some countries require these documents to be issued within their own borders. If this applies to you, make sure to submit your request well before your planned travel dates. If you're facing marriage-related issues or are getting a divorce in another country, officials at the nearest Canadian government office abroad can provide you with information on local lawyers, shelters, and social services that might be able to assist. We also offer services if you need help returning to Canada, are concerned about being treated unfairly under foreign laws, or require assistance while abroad. Unfortunately, there's been an increase in Canadians falling victim to marriage-related crimes or scams overseas. These can include being extorted by in-laws, caught up in cyber-romance scams, or even sponsoring a spouse who leaves once they arrive in Canada. If you find yourself in this situation, you'll need to hire a lawyer with expertise in matrimonial law. Polygamous marriages are illegal in Canada and considered an offense under our Criminal Code. Additionally, forcing someone (whether a child or adult) into marriage is also a crime. Taking anyone under 18 out of the country to force them to marry is against Canadian law as well. For more information on this topic, see our Forced Marriage page. In some countries, husbands can legally impose travel restrictions on their wives and children, preventing them from returning to Canada. Local laws may also allow him to keep her passport and assets even if they're divorced. For more advice on how to prevent being stranded abroad, check out our Travel Advice and Advisories or reach out to the destination country's embassy or consulate in Canada. Lastly, it's worth noting that some countries' laws can be quite restrictive when it comes to marriages involving foreign partners, including preventing you from returning to Canada. This is why it's essential to research the local laws before making any travel plans. To obtain a single status affidavit as a U.S. citizen or legal resident planning to marry abroad, you'll need to provide documentation that confirms your marital status. This usually involves obtaining an affidavit from the relevant authorities in the country where you're planning to get married. The document will verify that you are not already legally married and are free to marry under the laws of the foreign country. You can find more information on the costs associated with obtaining a single status affidavit by clicking on the "Fees" link provided. It's essential to understand how long the certificate or document remains valid, as this can vary depending on the type of document. To get started, you'll need to gather some personal details and documentation, including your family name, given names, date of birth, place of birth, age, mother's full name, father's full name, citizenship, residential address, and marital status declaration. You may also be required to take an affirmation or oath. It's recommended that you contact the U.S. Embassy or Consulate in the country where you're planning to get married for more specific guidance on the requirements and process for obtaining a single status affidavit. To get married abroad, you may need a single status certificate, which proves you're unmarried and eligible to marry freely. This document might be required before getting a marriage license in the country where you plan to tie the knot. However, each country has its own laws and regulations regarding this certificate. If you're not from that country or don't have citizenship there, you'll need proper documentation, including a single status certificate. This can also be necessary for employment in a foreign country. To obtain this document, check with local authorities, state government, federal agencies, consulates, or embassies for specific requirements and procedures. Each step of the process involves cooperation between multiple parties and may vary depending on the type of documents involved. It's essential to have all necessary information beforehand to avoid any complications. Some countries require an official certified translation of documents, while others might need an appointment for document submission. Additionally, even if your target country doesn't require embassy legalization, foreign authorities might still demand attestation from a consulate. Remember that each step of the process involves significant paperwork and time, with estimated public reporting burden being around 6 hours and 25 minutes per response. Before getting hitched, it's time to sort through paperwork and documents. One crucial document that often comes up in this process is the single status affidavit - a legal declaration that proves someone isn't currently tied down by marriage. This affidavit can be a real game-changer for people who've been married before, especially since about half of American marriages end in divorce. As it turns out, a single status affidavit can help simplify things when it comes to proving eligibility for remarriage. It serves as evidence that any previous marriages have been officially dissolved through divorce or annulment. With so many people getting hitched multiple times, having this document on hand can be a real lifesaver. In the following sections, we'll take a closer look at what a single status affidavit is and how it works. We'll also explore some key points to keep in mind when dealing with this important document. By the end of this guide, you should have a solid understanding of the role a single status affidavit plays in proving marital status. Some important things to note about single status affidavits include: * They're sworn statements that confirm someone's unmarried status * They often require the person to declare they're not related or married to their future spouse * Any previous marriages must be declared as legally dissolved * The document needs to be signed in front of a notary public or other authorized official * Falsifying information can lead to serious penalties, including perjury Single status affidavits come into play in several common situations: 1. **Getting married**: This is probably the most obvious reason for needing a single status affidavit. When applying for a marriage license, you'll need to provide proof that any previous marriages have ended. 2. **Visas and green cards**: U.S. Citizenship and Immigration Services (USCIS) often requires proof that prior marriages have legally concluded. A single status affidavit can serve as this evidence. 3. **Insurance coverage**: Some insurance companies ask for a single status affidavit when applying for coverage as a single person. This helps prevent fraud by people who are still married claiming to be single. 4. **Government assistance programs**: These programs often require proof of single marital status to determine eligibility and rates. A single status affidavit can provide the necessary evidence. 5. **Lending and refinancing**: Lenders may request a single status affidavit when refinancing a mortgage or applying for a loan as an unmarried person. This helps verify the number of incomes supporting repayment. In conclusion, a single status affidavit is a valuable tool for anyone who's ever been married before. It provides legal proof that any previous marriages have ended, making it easier to prove eligibility for remarriage. By understanding how this document works and when it's required, you can navigate these situations with confidence. Given article text here can vary slightly by state, they generally include the following standard information:The affidavit will contain personal details like name, date of birth, home address and contact number. You need to list previous marriages along with the marriage date and location. It will request divorce and death details and whether the spouse ended the marriage through divorce or annulment. Including case numbers can help strengthen the affidavit.The key component is a sworn statement saying you are not married now. This includes language stating you are unmarried and past marriages have been legally dissolved. You may also need to state that you are not related to your future spouse if remarrying.For single status affidavits to be valid, they must be signed in the presence of an authorized person. They verify identity and witness signature. Most affidavits conclude with a statement about false information leading to perjury penalties.This is to stress the importance of providing accurate information about unmarried status. Proof of current address is required to confirm residence. A utility bill can serve as proof of residency. Providing supporting documentation strengthens the affidavit's validity. Be sure to follow specific evidentiary requirements in your state and keep copies for records. Certain situations may lead to rejection of a single status affidavit: incomplete or missing information, unsigned or not notarized affidavits, outdated forms, immigration issues, discrepancies in provided details, prior marriages not legally ended, and inability to provide supporting documents. Some states do not allow affidavits, requiring specific divorce decree copies instead. A sample template for a single status affidavit includes: - Residency declaration - Date of birth and place of birth - Affirmation of current marital status - Disclosure of previous marriages, including dates, places, and termination details - Declaration that prior marriages have legally ended through divorce decrees or death certificates - Sworn statement under penalty of perjury that the information is complete and accurate A single status affidavit is typically valid for 1-3 months after being notarized. Some agencies require affidavits completed within the last 30 days. Note: Single status affidavits are not applicable to common law marriages. Lawful marriages aren't recognized as legal so no affidavit is required when they end. The affidavit serves to document legally dissolved marriages. If you lost touch with an ex-spouse, provide divorce documentation to verify the marriage ended. You can request records without knowing their whereabouts. Old affidavits won't be accepted as agencies want current verification of unmarried status. A recently completed affidavit is necessary. If divorcing but not finalized, don't claim single marital status until the courts finalize the decree. Both partners usually need to provide single status affidavits for the application. If your ex-spouse passed away but you can't find the death certificate, request a copy from the state records office where they died. An affidavit is a sworn statement on previous marital history; it's different from a certificate of no record found. Even if married outside the U.S., declare those marriages and provide documentation proving they were legally terminated or your spouse passed away. The single status affidavit serves an important legal purpose in documenting unmarried status, saving time and hassle when remarrying or applying for government benefits.
